How to Play Quartet

Goal of the Game:

The goal is to collect as many quartets as possible. A quartet is a set of 4 cards that belong to the same theme. In this version, all themes are related to well-being and health, such as Vegetables, Fruit, Drinking, etc. (8 themes total).

What You Need:

• A deck with 8 quartets (Each quartet has 4 cards → 32 cards total)

• 3 or more players (2 is possible but less fun)

Setup:

1. Shuffle all the cards well.

2. Deal 4–5 cards to each player (depending on number of players).

3. Put the remaining cards in a draw pile, face down.

How to Play:

1. Starting the Game

Choose a player to start (for example, the youngest).

2. Asking for Cards

On your turn:

1. Look at your cards and choose a quartet you want to complete.

2. Ask one other player for a specific card you need.

   • You must already have at least one card from that theme.

3. Example: “Do you have Fruit – Banana?”

3. If the Player Has the Card

• They must give it to you.
• You may continue your turn and ask again (from anyone).

4. If the Player Does Not Have the Card

• They say: “No, sorry.”
• You must draw one card from the draw pile.
• Your turn ends.

5. Completing a Quartet

When you collect all 4 cards from a theme:
1. Lay the quartet face up in front of you.
2. Briefly read the theme aloud.
Example: “This is the Fruit quartet. These cards teach us why fruit helps us stay strong and healthy.”

End of the Game

The game ends when all quartets have been completed OR the draw pile is empty and no more cards can be asked.

Winning

The winner is the player with the most completed quartets.

Jinsi ya Kucheza Quartet

Lengo la Mchezo:

Lengo ni kukusanya quartet nyingi iwezekanavyo. Quartet ni seti ya kadi 4 zinazohusiana na mada moja. Katika toleo hili, mada zote zinahusu ustawi na afya kama vile Mboga, Matunda, Vinywaji n.k. (jumla mada 8).

Unachohitaji:

• Kifurushi chenye quartet 8 (Kila quartet ina kadi 4 → jumla kadi 32)

• Wachezaji 3 au zaidi (inawezekana pia wawili, lakini siyo raha sana)

Maandalizi:

1. Changanya kadi zote vizuri.

2. Gawa kadi 4–5 kwa kila mchezaji (kulingana na idadi ya wachezaji).

3. Weka kadi zilizobaki kwenye stoo ya kuchukua, zikiwa zimegeuzwa chini.

Jinsi ya Kucheza:

1. Kuanza mchezo

Chagua mchezaji wa kuanza (kwa mfano, mdogo zaidi umri).

2. Kuomba kadi

Katika zamu yako:

1. Angalia kadi ulizonazo na uchague quartet unayotaka kukamilisha.

2. Muulize mchezaji mwingine kadi mahsusi unayoihitaji.

- Lazima tayari uwe na angalau kadi moja ya mada hiyo.

3. Mfano: “Je, unayo Matunda – Ndizi?”

3. Ikiwa mchezaji ana kadi hiyo

- Lazima akupe.
- Unaweza kuendelea na zamu yako na kuuliza tena (kwa mtu yeyote).

4. Ikiwa mchezaji hana kadi hiyo

- Atasema: “Hapana, samahani.”
- Lazima uchukue kadi moja kutoka kwenye stoo ya kuchukua.
- Zamu yako inaisha.

5. Kukamilisha Quartet

Ukipata kadi zote 4 za mada moja:
1. Ziweke mezani mbele yako, zikiwa juu.
2. Soma kwa kifupi mada ya quartet hiyo.
Mfano: “Hii ni quartet ya Matunda. Kadi hizi zinatueleza kwa nini matunda hutusaidia kuwa wenye nguvu na afya.”

Mwisho wa Mchezo

Mchezo unaisha wakati quartet zote zimekamilika AU stoo ya kuchukua imeisha na hakuna maswali zaidi ya kadi yanayoweza kuulizwa.

Mshindi

Mshindi ni mchezaji mwenye quartet nyingi zaidi zilizokamilika.
